

Q & A Rankings - CAC Meeting 3/13/2017

Watershed District

Type of Projects you want the district to focus on.

- 1 Water quality (x4)
Bio reactor
Impoundments / More basin / storage areas (x3)
Monitoring
Install pea rock inlets
- 2 More Cost share opportunities
- 3 AIS Activities

CAC

What would you like to see the CAC focus on?

- 1 Getting input from all stake holders
- 2 Water quality
Focus/identify and monitor more closely problem areas of runoff/drainage
- 3 Education

Shoreland BMPs

How do we get more projects in the ground?

- 1 Education for landowners (x2)
- 2 More cost share available/Money/Matching Funds (x3)
- 3 Get Pilot projects on ground in shoreland

Agricultural BMPs

How do we get more projects in the ground?

- 1 Educate landowners on funding
- 2 Cost share - closing ditches / rock inlets
- 3 Fix feedlots / drainage into Rice Lake
- 4 Impoundments
- 5 More water sampling locations
- 6 Return on investments criteria

Drainage

Ways to improve program?

Field Work

- 1 Alternative Intakes
- 2 Grants for rock inlets (x2)
- 3 State & Federal funding - close ditch with tile
- 4 Maintenance schedule
- 5 Regular meetings on ditches

Prevention

- 1 Upland treatment/BMPs - cost share (x2)

Other

Education Targeted Newsletters / Mailings / cost share

Education

How do we reach more watershed residents?

- 1 Newsletter (x2)
- 2 Target mailing to subwatershed affected include cost program available
- 3 Tours or field days
- 4 Large scope media
- 5 Door to door

Others

- Make it personal
- Positive stories
- Social Media/Facebook
- Buffer on lakeshore property/CRP for lakeshore - trial run
- Funding
- Personal contributions / taxable / going up or down / why's / how to offset cost
- Hot topic / negative sells
