RED RIVER PARTNERS SUMMER TOUR

Grand Forks, ND | August 23-25, 2022

Bus Tour Itinerary Wednesday, August 24, 2022 (Minnesota and North Dakota sites)

8:00 a.m. Load buses at hotel parking lot for **8:30 a.m. departure:** Canad Inns, 1000 S. 42nd Street, Grand Forks, ND 58201

Oslo: Tour participants will stop and see the Red River at Oslo and hear about Oslo area flooding and the Border Township Associative Group (BTAG) efforts to end Oslo's isolation from flooding by addressing the bridges and roadways that connect Minnesota and North Dakota.

Floodplain easements: Participants will see efforts since 1997 to provide flood damage reduction to private landowners along the Red, Forest, and Park Rivers in ND using USDA NRCS Emergency Watershed Protection (EWP) and Wetland Reserve Program (WRP) easements.

City of Drayton: The tour will look at and hear about the city's efforts for flood protection with dikes.

Drayton Dam: Tour will stop at the Drayton Dam located approximately three miles northwest of the City of Drayton. This structure will be modified as part of the mitigation plan for the F-M diversion project. When implemented it will allow fish passage upstream and will facilitate the movement of fish species such as the lake sturgeon to spawn as it did years ago. The project will also reduce the public safety concerns at the site.

Springbrook Flood Protection Project: This project consisted of constructing approximately eight miles of setback dikes to the 10-year flood elevation to prevent future out-of-bank flows and overland flooding. Twenty-eight side water inlets were installed and a 300-acre grass buffer corridor was created. In addition to providing significant flood damage reduction, the project has provided natural resources enhancements by reducing erosion, providing a habitat corridor, and reducing turbidity and suspended solids. Funding sources included the USDA-NRCS's PL566 small watershed program, Reinvest In Minnesota, the DNR's Flood Hazard Mitigation grant program, and the Two Rivers Watershed District.

Agassiz Valley Water Resource Management Project: This project was developed under the Mediation Agreement between the State of Minnesota and the RRWMB. It is a multi-purpose project which combines flood control and environmental enhancement features. It occupies about 2,600 acres in Marshall and Polk Counties in which an off-channel impoundment of approximately 5.25 miles of embankment, 5.5 miles of inlet channels, and two miles of bypass channel were constructed.

Swift Coulee Channel Restoration: This project includes restoration of meandering channel across eight sections of McCrea and Warrenton Townships in Marshall County. The channel restoration design is based on the Rosgen type E-Channel and a floodplain design for a 10-year frequency event. A setback levee included for flood damage reduction benefits and a culvert sizing scheme to reduce peak flows downstream. Side water inlets will be installed to minimize sediment runoff from adjacent agricultural fields. This project will provide flood control, habitat restoration, and soil health/erosion reduction benefits.

Snake River PL-566 Project: Phase 1 of this project consisted of the construction of the lower 4,000 feet of floodway and the outlet chute. Phase 2 included the off-channel floodwater storage area with a flood pool storage area of 6,800 acre/feet. Phase 3 consisted of the construction of the Snake River diversion structure and the upper three miles of floodway. Phase 4 called for mitigating 38.73 acres of directly and indirectly impacted wetland acres, as well as seven acres of forest impacted by construction of the project.

MEMORANDUM

DATE: July 1, 2022
TO: MAWD Members
FROM: Sherry Davis White, Resolutions Committee Chair
RE: **2022 REQUEST FOR MAWD RESOLUTIONS**

It is that time of year for MAWD members to submit their policy recommendations through our resolutions process. This is YOUR organization and policy statements start with YOU! Here are the next steps and timeline:

- July / August** Members write, discuss, and approve resolutions at your WD/WMO meetings. The more detail you can provide, the easier it will be for the committee to make a recommendation.
- September 1** Administrators submit resolutions and background information documents to the MAWD office at emily@mnwatershed.org by September 1. If more time is needed, please contact the MAWD office so the MAWD Resolutions Committee is aware that another resolution may be submitted. The latest possible date to submit a resolution is **60 days before** the annual meeting (October 4). We ask that resolutions be submitted according to the described timeframe to ensure distribution to members for discussion by your boards in November.
- NOTE: If all the requested information is not included, the Resolution will NOT be accepted.**
- September / October** The MAWD Resolutions Committee will review the resolutions, gather more information or ask for further clarification when deemed necessary, work with the submitting watersheds to combine similar resolutions, reject resolutions already active, discuss and make recommendations on their passage to the membership.
- October 31** Resolutions (with committee feedback) will be emailed to each organization by Oct 31.
- NOTE: If at all possible, please hold a regional meeting to discuss the Resolutions BEFORE the annual conference.**
- November** Members should discuss the resolutions at their November meetings and decide who will be voting on their behalf at the annual meeting (2 voting members and 1 alternate are to be designated per watershed organization)
- December 3** Delegates discuss and vote on resolutions at the annual resolutions hearing. Please be prepared to present and defend your resolution.
- December** Legislative Committee will review existing and new resolutions and make a recommendation to the MAWD Board of Directors for the 2023 legislative platform.
- December 2022** MAWD Board of Directors will finalize the 2023 legislative platform.
- January 2023** Legislature returns for the 93rd Legislature, 2023-2024.

NOTE: Resolutions passed by the membership will remain MAWD policy for five years after which they will sunset. If a member wishes to keep the resolution active, it must be resubmitted and passed again by the membership. Enclosed with this memorandum are the active resolutions and those that will sunset 12/31/22. Please feel free to contact me at sherrywhite@mediacombb.net or (952) 215-6963 or our Executive Director Emily Javens if you have any questions at emily@mnwatershed.org or (651) 440-9407.

MAWD supports legislation to achieve one or both of the following:

- a) To clarify that an affected county must finance a watershed district drainage project on project establishment and request of the watershed district; and
- b) To authorize watershed districts to finance drainage project establishment and construction by issuance of bonds payable from assessments and backed by the full faith and credit of the watershed district; and further provide for adequate tax levy authority to assure the watershed district's credit capacity.

2018-08 Reinforce Existing Rights to Maintain/Repair 103E Drainage Systems

MAWD supports legislation modeled after House File 2687 and Senate File 2419 of the ninetieth legislature (2017-2018) reinforcing that the DNR cannot restrict existing rights to maintain and repair 103E public drainage systems.

LAKES AND WETLANDS

2020-01 Appealing Public Water Designations

MAWD supports legislation that would provide landowners with a more formal process to appeal decisions made by the DNR regarding the designation of public waters including the right to fair representation in a process such as a contested case proceeding which would allow landowners an option to give oral arguments or provide expert witnesses for their case.

2020-02 Limiting Negative Impacts from Wake Boats

MAWD supports:

- a) limiting wake boating to areas of lakes sufficiently distanced from shorelines to allow boat generated waves to adequately dissipate and lessen energy before coming into impact with lake shorelines;
- b) banning wake boats wakes in shallow lake areas where waves created by wake boats detrimentally impact sediment, aquatic vegetation, and aquatic habitat; and
- c) requiring new and existing wake boats to be able to completely drain and decontaminate their ballast tanks.

2020-04 Temporary Water Storage on DNR Wetlands during Major Flood Events

MAWD supports the temporary storage of water on existing DNR-controlled wetlands in the times of major flood events.

2019-07 Chinese Mystery Snail Designation Change and Research Needs

MAWD supports Chinese Mystery Snail prevention and control research and to change the Chinese Mystery Snail designated status in Minnesota as a regulated species to a prohibited species.

2017-02 Temporary Lake Quarantine Authorization to Control the Spread of AIS

MAWD supports legislation granting to watershed districts, independently or under DNR oversight, the authority, after public hearing and technical findings, to impose a public access quarantine, for a defined period of time in conjunction with determining and instituting an AIS management response to an infestation.

WATERSHED MANAGEMENT AND OPERATIONS

2021-03: Support Increased Flexibility in Open Meeting Law

- MAWD supports changes to the Open Meeting Law to provide greater flexibility in the use of interactive technology by allowing members to participate remotely in a nonpublic location that is not noticed, up to three times in a calendar year per manager.
- MAWD supports allowing public participation from a remote location by interactive technology, or alternatively from the regular meeting location where interactive technology will be made available for each meeting, unless otherwise noticed under Minnesota Statutes Section 13D.021.
- MAWD supports changes to the Open Meeting Law requiring watershed districts to prepare and publish procedures for conducting public meetings using interactive technology.

2021-06: Support 60-day Review Required for State Agencies on Policy Changes

MAWD supports requiring State Agencies to provide a meaningful, not less than 60-day review and comment period from affected local units of government on new or amended water management policies, programs, or initiatives with a response to those comments required prior to adoption.

2021-07: Support Metro WBIF for Approves 103B Plans Only

MAWD supports BWSR distribution of metro WBIF among the 23 WMOs with state-approved comprehensive, multi-year 103B watershed management plans. Those plans implement multijurisdictional priorities at a watershed scale and facilitate funding projects of any eligible local government unit (including soil and water conservation districts, counties, cities, and townships).

2020-03 Soil Health Goal for Metropolitan Watershed Management Plans

MAWD supports amending Minnesota Rule 8410.0080 to include a goal for soil health in watershed management plans and ten-year plan amendments.

2019-01 Streamline the DNR permitting process

MAWD supports legislation, rules, and/or agency policies to streamline the DNR permitting process by increasing responsiveness, decreasing the amount of time it takes to approve permits, providing a detailed fee schedule prior to application, and conducting water level management practices that result in the DNR reacting more quickly to serious, changing climate conditions.

2019-03 Support for Managing Water Flows in the Minnesota River Basin Through Increased Water Storage and Other Strategies and Practices

MAWD supports efforts to manage the flow of water in the Minnesota River Basin and the Minnesota River Congress in its efforts to increase water storage on the landscape; and

MAWD supports the Minnesota River Congress in its efforts to secure state and federal programs targeted specifically to increase surface water storage in the Minnesota River Watershed.

2019-05 Watershed District Membership on Wetland Technical Evaluation Panels

MAWD supports legislation to allow technical representatives of watershed districts to be official members of wetland technical evaluation panels (TEPs).

2018-03 Require Timely Appointments to the BWSR Board

MAWD supports legislation that requires the Governor to make BWSR board appointments within 90 days of a vacancy or board member term expiration.

2018-04 Require Watershed District Permits for the DNR

MAWD supports an amendment to the MN Statute § 103D.315, Subd. 5, to include the MN Department of Natural Resources as a state agency required to get permits from watershed districts when applicable.

2018-06 Ensure Timely Updates to Wildlife Management Area (WMA) Plans

MAWD supports that WMA operation and maintenance plans and/or management plans are either drafted or brought current in a timely fashion, with input from local governmental entities, to ensure their consideration in future One Watershed, One Plan efforts.

2018-09 Clean Water Council Appointments

MAWD may ask the representative of the Clean Water Council to resign when they lose their direct association to a watershed district; and that MAWD will recommend to the Governor's office that managers and/or administrators in good standing with MAWD be appointed to the Clean Water Council.

SWCD Conservation Day at SWELL

Scandia Woods Environmental Learning Lab

June 15, 2022

Dear Conservation Leader,

The 2021 Stevens & Pope County Conservation Day is being held on Thursday, September 29, 2022. The event will be held at **Scandia Wood Environmental Learning Lab, (SWELL), near Morris, MN** and includes approximately 300 students within Morris, Hancock, Chokio, Alberta, Villard, Glenwood, Brooten, Belgrade, Elrosa, Starbuck, and Cyrus. The students learn a great deal about our environment and what their role is in helping protect our natural resources.

The purpose of the **Conservation Day** is to teach fifth grade students about wildlife, composting, forestry, native prairie, geo caching, orienteering, raptors, reptiles, wetlands/aquatics and more. The students also enjoy a great day being in the outdoors.

Funding is vital to the success of programs of this magnitude. Most schools are not able to attend unless we can help with their busing expenses. The cost of one bus would be \$150-\$200, so if you could consider sponsoring one or two buses that would be great! Any donation would be greatly appreciated. Please send your donation along with your donation form to the Stevens SWCD office by **August 1, 2022**. Thank you for your consideration to help fund this conservation education event for Stevens & Pope County 5th graders in September!

Celebrating 15 years!

Thanks!

Sincerely, *Judy*

Cooperative Weed Management Area Program

2022 Stearns County Cooperative Weed Management Area Cooperative Agreement

This Cooperative Agreement among the undersigned serves as the replacement document for the previously established Stearns County CWMA Memorandum of Understanding and seeks to organize and implement a “Weed Management Area” within the legally defined boundaries of Stearns County, Minnesota. The undersigned recognize the degrading negative threats to native aquatic, wetland, and terrestrial systems posed by invasive plant species and the existing negative impacts currently altering natural ecosystem function due to their proliferation throughout Stearns County. The undersigned are cooperators of the ongoing Stearns County Cooperative Weed Management Area that seeks to: inventory, map, monitor, and control invasive plant infestations using a network of staff and volunteers; research and facilitate control methods, utilizing prescribed best management practices; and develop educational and outreach materials describing the effort and providing action guidelines for State and local governmental agencies, private landowners, residents and stakeholders. The primary goal of the undersigned is to protect the natural ecosystem biodiversity of Stearns County from invasive species impacts by minimalizing the spread and distribution of invasive plant species and rehabilitating natural systems already impacted. Many of these cooperators have been committed to these measures since the CWMA program began in Stearns County in 2008 and they seek to continue to build this strategic alliance for the continued protection, and management of Stearns County from invasive plant species. This Cooperative Agreement creates a platform to share information among the partners and provide assistance and expertise regarding invasive species management (e.g. control methods, introduction of prevention measures, restoration tools, standardized data collection, etc.) activities on their lands and waters.

This Cooperative Agreement in no way restricts any of the partners from participating in similar activities with other public or private agencies, organizations, or individuals.

This Cooperative Agreement shall be in effect for five years from the date of signing and shall be reviewed and updated as necessary to meet the purposes of this agreement. Amendments shall become effective upon approval by all partners.
